DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Specification

1. The disclosure is objected to because of the following informalities:

The references to claim 1, 2, 3, 4 & 5 on page 1 of specification in line# 2, 12, 13, 15, 18 and 20 should be deleted as specification should not include any reference to any claim.

Appropriate correction is required.

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Appropriate correction is required.

Claim Objections

3. Claims 1, 4 and 5 are objected to because of the following informalities:
3. The use of term "its" or "it" in claim sentence renders the claim unclear and indefinite as "it" or "its" does not represent any specific structure.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

4. Claims 1-5 are allowed.
5. The following is an examiner's statement of reasons for allowance: prior arts Weinreich WO 03/051587 and Tieman 2953853 do not teach in combination with the other limitations of claim1, a rotatably mounted slicing arm roundel with an internal thread which fits the on the guide rod and under the slicing arm is embodied with a holding arm which hold the upper part of a block of cheese.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Weinreich WO 03/051587 and Tieman 2953853.
